

## **Colorado Workforce Development Council**

### **Continuous Improvement Management System**

#### **Performance Incentive Award**

The Performance Incentive Awards are available to Colorado's nine Federal Workforce Regions. The Performance Incentive Award (PIA) is divided into two categories

- A. Standards Award
- B. Excellence Award

##### **A. Standards Award**

Colorado's nine Federal Workforce Regions, collectively, produce results that allow the State to meet their Workforce Investment Act (WIA) performance measurements with the U.S. Department of Labor. When Colorado meets their state performance requirements everyone benefits. All Workforce Regions will receive an equal distribution of these incentive dollars for their contribution to the State's overall success.

##### **B. Excellence Awards**

This award is available to Colorado's nine Federal Workforce Regions. These award dollars will be distributed among those workforce regions exceeding their performance goals they negotiated with the Colorado Department of Labor and Employment, thus supporting the State's overall performance.

The Colorado Department of Labor and Employment provides Workforce Region's performance to the Office of Workforce Development.
